# UI/UX Design Specification & Screen Options

Abs-Track by Helna: Mobile-First, AI-Native Design System & Multi-Device Wireframes

**Author:** Product & UX Design Team | **Target:** Mobile PWA & Responsive Web
**Design Paradigm:** AI-Native Interactions, Thumb-Driven Navigation, Adaptive Layouts

## 1. AI-Native & Mobile-First Design Principles

Because Helna's clients are busy professionals across India, the US, and Australia, the application must be designed **Mobile-First** with an **AI-Native interaction model**. Key design pillars include:

- **Zero-Type Data Entry:** Leveraging computer vision and conversational AI so clients never type long logs; photo uploads and voice/chat check-ins take precedence.
- **Thumb-Zone Ergonomics:** Primary actions (check-in upload, next video, quiz navigation) are anchored to the bottom third of mobile screens for effortless one-handed use.
- **Responsive Adaptive Shell:** On desktop browsers, the mobile PWA scales into a powerful multi-pane command center for Helna and desktop-optimized client dashboards without losing the native app feel.

## 2. Design Options: Visual Styles & Theming

### Option A: "Elite Athletic Dark" (Recommended)

**Vibe:** High-end, sleek, professional fitness studio aesthetic.

- **Background:** Deep Carbon Black (#0f172a) & Charcoal (#1e293b).
- **Accents:** Electric Cyan (#38bdf8) for interactive states, Neon Emerald (#4ade80) for success/compliance.
- **Typography:** Bold sans-serif headers with high contrast for outdoor legibility.

### Option B: "Clean Minimalist Health"

**Vibe:** Airy, clinical, wellness-focused.

- **Background:** Crisp Off-White (#f8fafc) & Pure White (#ffffff).
- **Accents:** Deep Navy (#0f172a) text with Vibrant Coral (#f43f5e) action buttons.
- **Typography:** Clean humanist sans-serif optimized for long-form readability.

## 3. Screen-by-Screen UI Layouts & Wireframes

### 3.1 Prospect Onboarding & Discovery Flow (AI-Native Quiz & Philosophy)

#### Mobile PWA Screen (375x812px)

```
[ HEADER: Logo "ABS-TRACK" ]
---------------------------------
AI Assistant: "Hi! I'm Helna's virtual guide.
Let's find your custom track."

[ PROGRESS: [===-------] Step 2/5 ]

Where are you based?
(o) India (Macro & Local Diet)
( ) United States (Western Macro)
( ) Australia (Global Hybrid)

[ BTN: Next Question -> ]
```

#### Desktop Web Screen (1440x900px)

```
[ SPLIT SCREEN LAYOUT ]
Left: Immersive loop video of Helna explaining
hybrid philosophy.
Right: Interactive conversational quiz
container with dynamic card animations, instant
currency selector (INR/USD/AUD), and smooth
transition states.
```

### 3.2 Active Client Daily Check-In (AI-Powered Visual Log)

#### Mobile PWA Screen (375x812px)

```
[ HEADER: Streak Flame [5 Days] ]
---------------------------------
AI Meal Inspector:
[ + Tap to Snap Meal Photo ]
[ AI Auto-Detecting... ]
Detected: Grilled Chicken Salad (~420 kcal, 38g
P)

Energy Level: [---O------] (8/10)

[ BTN: Send to Coach Helna ]
```

#### Desktop Web Screen (1440x900px)

```
[ WIDE CLIENT DASHBOARD ]
Left Nav: Home | Workouts | Nutrition | Vault
Main Area: Weekly compliance trend charts,
video library grid with HLS streaming player,
and direct messaging chat drawer with Helna.
```

### 3.3 Coach Command Center (Helna's Dashboard)

#### Mobile Tablet / Coach View

```
[ COACH HELNA PORTAL ]
Clients Needing Review (3):
- Rahul K. [RED: Protein Low]
- Sarah M. [GREEN: On Track]

Tap client to open AI Split-Screen review
panel.
```

#### Desktop Web Command Center (1440x900px)

```
[ 3-COLUMN SPLIT SCREEN ]
Col 1: Master Client List (30 active clients
with health status badges).
Col 2: AI Review Split Screen (Left: Meal Photo
& AI Macro parser; Right: AI Summary Draft & 1-
Click [Approve] button).
Col 3: Modular Plan Drag-and-Drop Builder.
