COLOUR USAGE

1a

1b

1c

Coloured Logo never to be placed directly on the image with coloured background (1a.).
It should be always supported with a white base. (1b.)
In case, there is no room for white base, white logo can be place with slight darkness behind it (1c)...

COLOUR USAGE

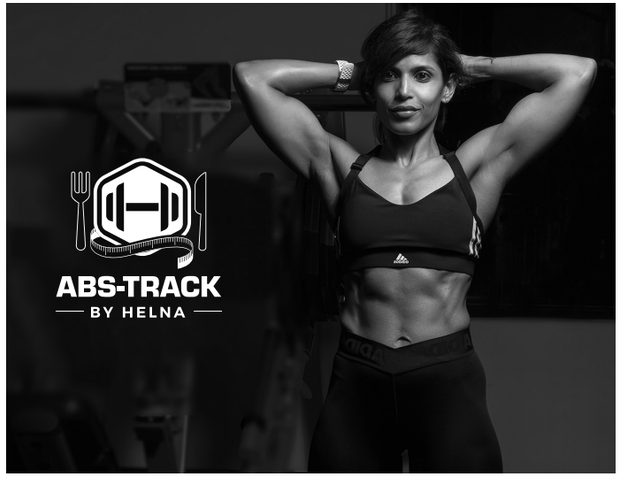

2a

2c

Single Colour logo to be used for black and white images/ dark background.

2b

2d

As long as the logo stands out clearly, it need not necessarily be on white base.

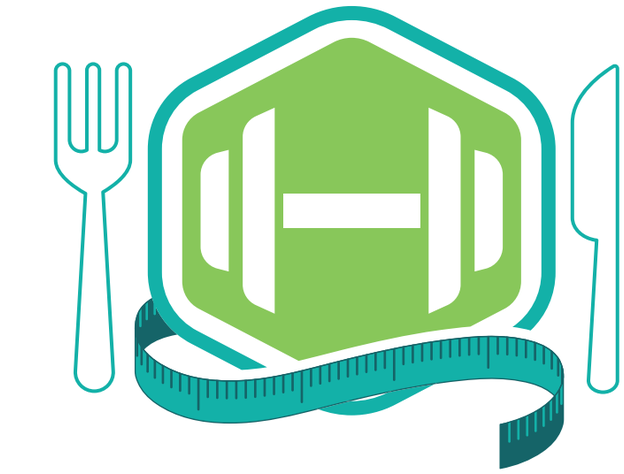

FAVICON USAGE

Favicons are basically just the symbolic version of the logo (without the brand name). Favicons are generally used where putting the name of the brand is not essential. Just the symbol, is sufficient. It can be used as app icons, on regular social media posts, stamps, envelopes seal, etc.

For the usage, it should be used **only in single colour.**

SUMMARY

This is a basic template for posts that are related to videos

These posts should not have lot of text. The font for headlines/ titles should belong to Eurostile family.

The favicon (white) should be at the bottom right corner, with a reduced transparency.

The colour of the bands should be as per the post. Teal colour for gym/ workout related videos. Green for Diet related posts. Turquoise for promotion/sale related posts.

3. CONTENT BASED

Content based templates are for the posts that have lot of text. Hence, for such posts, we break down into multiple slides.

Since, these are usually promotional posts, the bands will be turquoise in colour.

The favicon (white) should be at the bottom right corner, with a reduced transparency.
The last slide should have he brand logo on white background.

PHOTOGRAPHY

To ensure the social media page looks aesthetically good and professional, there are certain things with respect to the photography and videos to be noted about.

1. The images should be well shot and high resolution. (Min. 1080x1080 pixels). Even if it is shot from phone, ensure that the background is not too messy and crowded with people.
2. The posts about diet, should always have food shot take from the top kept on the table. (as shown in the image based slide).
3. Avoid putting personal time pictures
4. Try and incorporate any objects in photos that is related to the logo colour. Eg, It could be the top you are wearing while working out, or any furniture, cushion, plates, table, etc.
5. The videos should be still and not shaky.
