HETAL : NUTRITION PROGRAM

Training - Nutrition – Mentoring

20th July 2026 – 20th Oct 2026

DEAR HETAL

Welcome to Your Training & Nutrition Program!

I'm excited to have you on board as you begin this transformative journey toward better health (targeting inflammation , osteoporosis, psoriasis , low iron , cholesterol) muscle growth, performance, fatloss, strength and better overall health.
My goal is to guide you with the right strategies in training, nutrition, and supplementation—helping you build muscle efficiently while also optimizing energy and recovery.

To get started, please take a moment to read through the introduction section, which outlines everything you need to know about your program and what to expect in the coming weeks.
Your program includes:
✅*Science-backed nutrition strategies to fuel your progress – body recomposition*
✅*Key supplementation guidance to enhance muscle recovery, reduce cortisol, and improve overall performance*
✅*A simplified, easy-to-follow approach to ensure long-term success*

I'm here to support you every step of the way and can't wait to see your transformation. Let's build muscle, optimize health, and crush your goals together!

Let's get after it!
Helna

STRATEGIES FOR SUCCESS

Communicate with your coach

Keep me up to date with everything regarding your training plan & nutrition plan. If there are exercises you need to be further explained or any questions regarding the training do not hesitate to ask. The more we communicate the easier it will be to remain accountable and adhere to the program

Stay on the path

If you find yourself straying from the path then let me know and we will work together to get back on it. Remaining accountable and adhering to the program is an essential key to success. Staying on the path will improve success rate and keep us moving towards the achievement of your health and fitness goals.

Daily check-ins

In my experience daily reporting & check-ins make the program successful. Mornings report your weight , sleep & recovery. And update your foodlog in myfitnesspal. We will set weekly mini goals & il be making changes in your workout plans/dietplans fortnightly or weekly depending on how you progress.

NUTRITION PLAN DETAILED

Week 1
1500 cals

Protein (g) : 60-90g
Carbs (g) : < 150g
Fat (g) : 40-45g

*If you're having **75g of soya, tofu, or tempeh** for lunch/dinner , consider having **½ a scoop of protein powder** to your meal to bring the total protein content up to around **20g.***

	Description	Calories	Protein	Total
Meal 1	soaked methi seeds in water	5	1	
	Black Decaf Coffee (don't have it empty stomach)	5	0	
	Puffed Rice Cake with Unsweetened Pistachio Butter / Mixed Seed Butter	80	5	
	20g certified GF oats + 50–100g berries + 2 almonds + 2 walnuts + 1 tbsp mixed seeds + 1 tsp chia + 1 tsp ground flax + 1 Brazil nut + ¾–1 scoop Naked plant protein blended with unsweetened fortified almond milk.	320	18	
				410
Meal 2	**Protein:** 75g tofu I 75g tempeh I 75g soya nuggets/granules I 100g edamame, paired with **½ scoop Naked plant protein**	150	20	
(Lunch)	**Fiber :** Vegetables / Sabji : 100g -150g	125	2	
	Fiber : Salad 100g (very important) mix cucumber , bellpepper , cabbage , lettuce etc	25	2	
	Lentil / Beans : 100g	150	7	
	Carbs :50g Rice or Quinoa or sweetpotato or 1ragi dosa or 1amaranth roti or Shirataki Noodles or 1 besan or moong chila	100	2	
	Kiwi / Mandarin / lemon / amla - Vit C for better iron absorption	30		**580**
Meal 3	Black Decaf Coffee (don't have it empty stomach)	5	0	
3-4 hrs after lunch	10g Makhana + 1tbsp Trailmix / Berries + Trailmix / Rice Cake & Nut Butter / Veggie sticks & Hummus / Masoor dal crackers	150	5	
				155
Meal 4	**Protein:** 75g tofu I 75g tempeh I 75g soya nuggets/granules I 100g edamame, paired with **½ scoop Naked plant protein**	150	20	
(Dinner)	Fiber : Vegetables / Sabji : 100g or Dal 100g	125	2	
Before 7pm	Fiber : Salad 100g (very important) mix cucumber , bellpepper , cabbage , lettuce etc	25	2	
	Kiwi / Mandarin / lemon / amla - Vit C for better iron absorption			
				300
		1445	**86**	**1445**

SAMPLE DISHES

Protein per meal : (20-25g)

Weekly Menu Sample (and squeeze lemon to your veggies or dal or have a kiwi / warm water with lemon / or a small orange)

Weekday	Breakfast	Meal 2	Meal 3	Meal 4	Dinner
Monday	Coffee + Rice Cake & Nut Butter	Overnight Oats with 1/2 scoop Protein Powder & berries	1.Cucumber beet salad. 2.Tofu Bhurji 3.Spinach Bhaji 4.Moong Chila	Makhana & 1tbsp Trail Mix	Grilled Tempeh + Cucumber Beet Salad + French Beans Bhaji
Tuesday	Coffee + Rice Cake & Nut Butter	1 scoop Plant Protein + Berries Seeds & nuts with 1 Chila	1.Bellpepper salad. 2.Moong Dal 3. Red Spinach Bhaji 4. 1 Jowar Roti	Rice cake + 1 tsp Pistachio butter + 100g fruit	Tempeh/ Paneer with Sweet Potato Mash & Sautéed Greens
Wednesday	Coffee + Rice Cake & Nut Butter	Overnight Oats with 1/2 scoop Protein Powder & berries	1. Arugula Cucumber apple salad. 2. Shirataki Noodles with edamame and mixed veggies	Protein Shake	Grilled Paneer + Pumpkin Sabji & Mix Veg Salad
Thursday	Coffee + Rice Cake & Nut Butter	1 scoop Plant Protein + Berries Seeds & nuts with 1 Chila	1.Cucumber Arugula Avo Salad 2. Soya Bhurji 3. Spinach Carrot Green Peas sabji 4. Ragi roti / amaranth Roti	Veggie Sticks with Hummus	Eadamame ,Avocado, Lettuce , cucumber salad
Friday	Coffee + Rice Cake & Nut Butter	50g Poha , 1 scoop Protein powder , nuts and seeds	1.Cucumber carrot beet salad. 2. Tofu 3.Roasted Pumpkin 4. Herbed Quinoa	Rice cake + 1 tsp Pistachio butter + 100g fruit	Mixed veg salad & Protein Shake
Saturday	Coffee + Rice Cake & Nut Butter	Protein Shake + Fruit	Grilled Tempeh with Stir-Fried Veggies , Mixed Green Salad , Quinoa	10g Makhana	Eating out : Tofu stirfry or Mixed veggies with beans / tofu
Sunday	Coffee + Rice Cake & Nut Butter	Overnight Oats with 1/2 scoop Protein Powder & berries	Eating out : Ensure there is either tofu / edamame / paneer or lentils as protein source	Rice cake + 1 tsp Pistachio butter + 100g fruit	Tofu Palak with Amaranth Flour Roti

NUTRITION PLAN SUMMARY

This type of nutrition is perfect for your goal of:

- *Better overall health*
- *Fat loss and Retain Muscle*

HETAL's WEEK 1 Calorie goal is 1350-1450 :

Protein (g) : 60-90g
Carbs (g) : < 150g
Fat (g) : 40-45g

Update the above goals in myfitnesspal app. *In the Privacy Settings , there is an option to share the food log with a locked key . Plz set the key as* ***2026****.*
Also send me a request . My ID ***helna9***

NUTRITION PLAN TIPS

- ***I want you to eat protein in at least 3 of your major meals. Research shows that eating minimum 20g protein per meal helps in muscle protein synthesis & should be eaten between intervals of 2-4 hours to keep it going.***
- *Also I want you to try achieving your protein goals daily & eating within the calorie goal set for you*
- ***Vegetarian Protein sources** :Paneer or Tofu or Tempeh Or Soy chunks Or Edamame Or Greek Yoghurt OR Vegan Protein Powder Or Whey Protein Or Beyond Meat Steaks*
- ***Animal Protein Sources :** Eggs , Egg whites , Chicken Breast , Lean Lamb / Mutton / Lean Beef , Fish , Prawns, Shrimps, Whey protein*
- *All these preparations in less oil . I want to keep the oil/fat consumption low.*
- *Carbs that I would like you to eat in moderate proportions are : Oats, Rice, Tortilla, Quinoa, Potato , not more than 1 bread slice*
- *Bread consumption lesser the better for fat loss/weight loss , if you do – get Ezekial/ seeded bread*
- *While preparing milk tea/ coffee , reduce the quantity of milk/soymilk / almond milk (just in case)*
- *Instead of any butter with bread ,I would want you to replace it by 1 tbsp of peanut butter or almond butter. Preferably organic unsweetened ones*
- *Legumes or dals are excellent protein sources. Add variety Examples : Kidney beans , Chickpeas , Green Moong dal , Black eyed peas etc*
- *Rice : You can eat white or brown or black doesn't matter*
- *Quinoa is also a good option instead of rice.*
- *Oil : Olive oil , Avocado oil, Rice Bran Oil use sparingly for cooking*

NUTRITION PLAN TIPS

- *The key to fat loss is to reduce the intake of fat & high dense carbs like noodles, pizza , cheese , burgers , fries etc.*
- *Fruits : eat a small portion everyday around 100g to 125g e.g. apple, a small bowl of pineapple, blueberries, 1 orange, a small banana, papaya , ½ mango etc.*
- *Also add variety to vegetables that you eat daily : lady's finger, French beans, eggplant, capsicum, spinach , fenugreek, spring onion, different gourds, sweet potato, pumpkin, zucchini, asparagus, artichokes etc*
- *Eat more raw salads e.g colored bell peppers, sprouts, cucumber, beetroot, carrot, tomato, lettuce etc.*
- *For salad dressings use freshly squeezed lemon juice , ½ tsp honey & some dried salad seasoning herbs but **no** mayo or thick creamy cheesy dressings. Add few of your favorite nuts or seeds to add crunch to your salad.*
- *Drink at least 3-4 liters of water. Hydration is very important to keep you charged through out the day.*
- *Have **peppermint tea / chamomile tea** after lunch & dinner.*
- *TRY eating all your meals at the same time everyday. For e.g. : BF at 8 am , AM snack at 10am , Lunch at 1pm , 4pm tea/ coffee , 7pm dinner. Stick to it , body responds well to a regular routine*
- ***Chew your meals slowly & mindfully & not in a rush***
- *Have your last meal at least 2-3 hours before bedtime.*
- *No snacking post dinner*
- *Trick is to brush your teeth 30 minutes post dinner so that you don't end up snacking again*
- *If you want to snack & you are a tad hungry – then maybe few nuts like 8 pistachios , 2-3 almonds or cucumber or celery sticks ,*

NUTRITION PLAN TIPS

- *Snacking options when hungry : Greek yoghurt / a fruit /15g makhana/ 5-6 almonds / 2 dates / 2 apricots /10 pistachios or veggies & hummus*
- *Kombucha is an excellent drink for gut health. Get the ones which are 30 calories or less. Have it before your meals **if** you feel like having a drink ☺*

All the Best HETAL!

Consistency & discipline is the key for a successful transformation journey. Its never easy in the beginning. But after a fortnight you will get a hang of it. If you lose track or motivation, please don't hesitate to reach out to me.

Your Fitness & Nutrition Coach
Helna

FOR SWEET CRAVINGS

- *A small bowl of fruit – grapes , mango , stewed apple with cinnamon*
- *2 Dates*
- *1 or 2 square of peanut / sesame / multiseed chikki*
- *1 square of sugar free dark chocolate* (70% cocoa or higher) to satisfy your sweet tooth with less sugar.
- *Chia Pudding: Mix chia seeds with your choice of plant-based milk and let it sit for an hour for a delicious and fiber-rich pudding. Add some fruit or a sprinkle of cinnamon for extra flavor.*
- *Greek Yoghurt with berries and a lil honey*
- *Protein Bar minis*

FOR SNACKS

- *10 – 15 makhanas*
- *Rice cake with Peanut Butter / Almond Butter*
- *2 kiwis , half apple, blueberries , cherries etc*
- *½ Khakhra*
- *Mini – Protein Bars*
- *Carrot , Cucumber sticks with hummus*
- *Greek Yoghurt*

Quantities Of Protein , Carbohydrate , Vegetables , Fruit & Nuts

No	VEG PROTEIN	CARBS	VEGETABLES/ FRUITS
1	70 to 90g Tofu	Cooked Rice - 75g	125 to 175g of cooked veggies
2	70 to 90g Paneer	1 Medium Moong Cheela - 75g	100 to 150g of raw veggies
3	3 to 4 Egg Whites	Cooked Sweet Potatoes - 75g	Fruits - 100 to 150g in a day
4	100g Soya Nuggets / Soya granules bhurji	Dosa - 75g	Mixed Nuts -5 almonds , 1 walnut , 4 cashew , 1 Brazil nut
5	100g Tempeh	Sushi - 4 pieces 100g	Trailmix - 1 tbsp
6	100g Black Eyed Peas	Cooked Rice Noodles - 75 -100g	Makhana- 10 to 12
7	100g cookedChickpeas	Cooked Soba Noodles - 75 - 100g	15 - 20 g Murmura
8	100 - 150g of Curd/ Yoghurt	Cooked Daliya - 125g	Protein Bar Minis
9	CookedEdamame - 125g	Cooked Millet - 100g	Nut Butter - 1 tsp
10	Lentils (cooked) - 100g	Idli -100g	Avocado 2 to 3tbsp
11	Quinoa (cooked) - 100 to 125g	Poha -100 to 125g	
12	Chicken / Fish / Prawns - 125g to 150g	Chia Seeds - about 40g mixed with liquid	

TIPS TO MANAGE OVERALL HEALTH PARAMETERS

✔ *Include **20–25g protein per meal** (tofu, tempeh, edamame, lentils, beans, Naked plant protein) | ✔ Aim for **1.2–1.4g protein/kg body weight/day** to support bone and muscle health.*
✔ *Fill ½ **your plate with vegetables** at lunch and dinner | ✔ Aim for **30–35g fibre/day** from vegetables, lentils, oats, seeds, fruits, and millets.*
✔ *Include **calcium-rich foods daily**: fortified almond milk, tofu, sesame seeds, ragi, amaranth, moringa, spinach and greens | ✔ Target **~1200mg calcium/day**.*
✔ *Include **healthy fats daily**: 1 tbsp mixed seeds (pumpkin, sesame, sunflower) + 1 tsp flaxseed + 2 walnuts + 1 Brazil nut.*
✔ *Add a **vitamin C-rich food with lunch and dinner**: amla, kiwi, guava, mandarin, berries, broccoli or lemon to improve iron absorption.*
✔ *Avoid **tea or coffee 1 hour before and after iron-rich meals**.*
✔ *Choose **anti-inflammatory carbohydrates**: certified GF oats, quinoa, sweet potato, ragi, jowar and amaranth.*
✔ *Prefer **homemade gluten-free theplas**: ragi methi, jowar methi or amaranth methi thepla.*
✔ *Stay hydrated: **2.5–3L water daily**.*

TIPS TO MANAGE OVERALL HEALTH PARAMETERS

- ✓ Maintain a **moderate calorie deficit (300–500 kcal/day)** for sustainable fat loss while preserving muscle and bone health.
- ✓ Eat your meals in this order: **Vegetables → Protein → Carbohydrates** to improve satiety and reduce glucose spikes.
- ✓ Pair fruits or occasional treats with **protein or healthy fats** (nuts, seeds, nut butter) to slow sugar absorption.
- ✓ Limit **high-sugar fruits** (banana, mango, chikoo, grapes) and keep portions moderate.
- ✓ Choose **whole, minimally processed foods**: lentils, beans, millets, oats, nuts, seeds, olive oil and avocado. **Soak everything:** lentils, nuts, ragi flour, and grains overnight - reduces phytates, critical for mineral absorption across iron, calcium, and zinc
- ✓ Limit **packaged foods, refined flour, fried foods and added sugars** to reduce inflammation and improve cholesterol.
- ✓ Take a **10–15 minute walk after meals** and stay active throughout the day.
- ✓ Aim for **7–8 hours of sleep** and manage stress to improve inflammation, insulin sensitivity and cholesterol response.
- ✓ Strength train **2–3 times per week** to maintain bone density and preserve muscle during weight loss.
- ✓ Focus on **fat loss, reducing inflammation and building sustainable habits—not just the number on the scale**

Choose wisely (High carb /high fat dishes)

No	Snacks	Qty	Calories
1	Pani Puri/ Golgappa	1 piece	36
2	Dhokla	1 piece	75
3	Ragda Patties	1 piece	146
4	Lays chips	15 chips	160
5	Veg Biryani	1 cup (200g)	198
6	Cheese dosa	1	198
7	Bhatura	1 piece	205
8	Veg Hakka Noodles	1 cup (200g)	212
9	Vada Pav	1	250
10	Pizza Margharita	1 slice	250
11	Samosa	1 (100g)	262
12	Missal Pav	1 cup curry + 1 pav	264
13	Chicken Biryani	1 cup (200g)	292
14	Maggi Noodles	1 packet	296
15	Pizza - Chicken	1 slice	309
16	French Fries	100g	312
17	Bhel Puri	1 Plate	320
18	Cheesy Nachos	6-8 nachos	346
19	Banana Chips	75 g	374
20	Pav Bhaji	2 pav + 1 plate of bhaji	390
21	1 McDonalds Veg Burger	1 burger	426
22	KFC Chicken Zinger Burger	1 burger	463
23	Chole + Bhature (2 nos)	100g + 2 nos	590

Choose your drinks & mixers wisely

Preferably go for soda water, on the rocks , low calorie tonic waters , lemon water. Limit to 2 to 3 drinks in a week .
It can stall your progress / fatloss / hypertrophy hence be mindful.
Go for 30 ml instead of 60 ml , so then you can go for a repeat. Avoid sweet cocktails.

Alcohol			
No	Liquor	Qty	Calories
1	Gin	30ml	74
2	Whiskey	30ml	71
3	Red Wine	1 Glass	125
4	White Wine	1 Glass	120
5	Champagne	1 Glass	90
6	Vodka	30ml	65
7	Rum	30ml	64
8	Beer	Pint	193
9	Tequila	1 shot	97
10	Brandy	30ml	65
11	Light Beer	1 Pint	110

Choose your desserts wisely

They are mostly high calorie , high carb & high in saturated fat. Limit to once a week & control the portion size. Eating more than 2 desserts can halt the progress in body recomp.

Desserts / Sweets			
No	Food Item	Qty	Calories
1	Milk Chocolate (lindt)	1 square	22
2	Dates	1 piece	25
3	Peanut Jaggery Chikki	1 square	40
4	Dark Chocolate (lindt)	1 square	50
5	Kaju Barfi	1 piece	65
6	Ferreo Roceher	1 piece	73
7	Cappuccino w/o sugar	1 cup	75
8	Choc Chip Cookie	1 cookie	80
9	Granola bar (21 g)	1 bar	100
10	Rasgulla	1 piece	106

Desserts / Sweets			
No	Food Item	Qty	Calories
11	Greek yoghurt flavored	1 cup	120
12	Icecream	1 scoop	140
13	Gulab Jamun	1 piece	145
14	Banana Walnut Cake	1 slice	180
15	Motichoor laddoo	1 piece	205
16	Tiramisu	1 cup	225
17	Carrot Cake	1 slice	250
18	Chocolate cake	1 slice	275
19	Classic Doughnut	1 piece	300
20	Cheesecake	1 slice	325

LOW CAL , HIGH PROTEIN MEAL IDEAS (veg)

1. Tofu & Spinach Scramble
- Crumbled low-fat tofu/paneer sautéed with spinach, onion, tomato, and spices.

2. Tofu Bhurji
- Crumbled tofu cooked desi-style with onion, capsicum, tomato, turmeric, and coriander.

3. Tempeh Tikka Skewers
- Tempeh marinated in yoghurt + tandoori spices, grilled with peppers and onions.

4. Soya Chunk Pulao (Cauli Rice Base)
- Cauliflower rice tossed with boiled soya chunks, beans, carrot, and peas, spiced with cumin and coriander.

5. Greek Yoghurt Bowl
- Low-fat yoghurt topped with flaxseed powder, roasted pumpkin seeds, cucumber, and mint.

6. Sprouted Moong & Paneer Salad
•Moong sprouts, grated carrot, diced low-fat paneer, coriander, lemon juice.

7. Paneer & Veggie Stir-Fry
- Low-fat paneer cubes sautéed with zucchini, broccoli, and capsicum in chili-garlic sauce.

8. Tofu & Methi Curry
- Tofu cubes simmered in light tomato-onion gravy with fresh methi leaves.

9. Soya Kheema with Zoodles
- Minced soya cooked with peas and spices, served over zucchini noodles.

10. Tempeh Buddha Bowl
- Grilled tempeh, sautéed spinach, mushrooms, and cucumber, drizzled with tahini-lemon.

11. Yoghurt & Lentil Salad
- Moong sprouts mixed with hung curd, cucumber, tomato, coriander, and black salt.

12. Tofu & Quinoa Salad
•Grilled tofu cubes, quinoa, cucumber, tomato, mint, lemon dressing.

GROCERY LIST

Lean Proteins:
1. Eggs
2. Paneer low fat
3. Tempeh/ Tofu
4. Greek Yoghurt
5. Soya Granules / Nuggets
6. Whey Isolate / Vegan Protein Powder

Carb Sources:
9. Brown rice or unpolished white rice
10. Quinoa
11. Seeded bread (whole grain or multigrain)
12. Oats (rolled or steel-cut)
13. Keto granola (low-carb, sugar-free)
14. High-protein tortillas
15. Shirataki/ Konjac Noodles (when we go low carb)

Healthy Fats:
15. Nuts (almonds, walnuts, pistachios, brazil nut)
16. Seeds (flaxseeds, chia seeds, sunflower seeds, pumpkin seeds, sesame seeds)
17. Avocado

Low-Sugar Fruits:
18. Berries (strawberries, blueberries, raspberries)
19. Apples
20. Pears

Snacks:
21. Makhana (foxnuts)
22. Protein bars (look for low sugar and high protein content)
23. Trail mix (unsalted nuts, seeds, and dried fruits)
24. Rice cakes
25. Unsweetened almond butter or peanut butter or pistachio butter

NUTRITION PLAN GUIDELINES

Food Quality Matters

The goal for this type of nutrition plan is to eliminate all processed foods for the majority of each week and eat "whole foods" or foods which would exist in nature and are unchanged when you eat them (cooking excluded). Processed foods are not optimal for health and would be categorized as anything altered from its original state in nature, or if it doesn't exist in nature, it is obviously processed from other food sources.

To give wiggle room we will apply an 80-20 rule (eat well 80% of the time) as it tends to be the easiest and most sustainable way for most people to eat well and achieve their fitness goals. The way I further define the 80-20 rule would be that you eat as clean as possible from Sunday evening to Friday lunch and stray a bit on the weekends (always avoid grain and grain products) due to social events (boozing) and eating out (typically lower quality food).

Final Thought
Don't blow your good week of eating by going crazy on weekends and eating pizza, cake, cookies and candy. It's best to minimize damage to the best of your ability, which in turn promotes the achievement of your fitness goals.

THANK YOU AND ALL THE VERY BEST!
